Kids versus Fun – The Ultimate Club Challenge

Our venue was transformed into a thrilling TV-style studio for the ultimate Dana Club Game Show Challenge! Designed for young minds aged 6 to 12, the event was a whirlwind of excitement, laughter, and incredible displays of talent.

Our contestants formed small, dynamic teams and dove headfirst into a rapid-fire series of rounds that tested every skill imaginable. More than just a competition, the event was a celebration of core values: teamwork, creative problem-solving, and friendly competition. After a spectacular finale, the team with the highest cumulative score was crowned the official Dana Club Game Show Champion.

Ninja Challenge-Step into the world of Adventure!

On Thursday, 20th November 2025, we summoned our young warriors (ages 12-6) to test their courage, agility, and spirit at the electrifying Ninja Challenge 2025! Inspired by the legendary obstacle courses, our space was transformed into a thrilling arena of physical puzzles and daring feats.

Participants embraced their inner ninja, taking on a custom-built course designed to challenge their balance, coordination and teamwork. They navigated fun stations like balance beam, tunnel crawl, mini hurdles, cone zigzag and the final wall of bravery. The event emphasized resilience, determination, and a growth mindset. Every slip was a chance to learn, and every success was a triumph of perseverance. We celebrated personal bests and fostered a supportive atmosphere where every participant felt like a champion.

In the end, those who demonstrated incredible speed, skill, and ninja spirit earned top honors. It was a high-energy day of action, accomplishment, and unforgettable fun for the Dana Club young warriors!

HAPPENING IN OUR PROPERTIES

The Kitchen Stewarding team consistently follows daily hygiene protocols to clean and maintain all kitchen equipment. This includes specific tasks such as removing kitchen waste bins from operation for deep cleaning, ensuring smooth workflow while maintaining the highest standards of kitchen safety and hygiene, and restoring all equipment to proper working conditions for continued use.

In addition, the team adheres to strict hygiene procedures that involve removing the kitchen's stainless-steel working tables when necessary to thoroughly clean all gaps and eliminate accumulated grease and dirt. Once cleaning is completed, the tables are carefully reinstalled to maintain hygiene standards and support efficient kitchen operations.

The team consistently follows established daily hygiene protocols for cleaning all kitchen equipment, including specialized machinery such as the bone saw cutter while maintaining the highest standards of kitchen safety and sanitation. The refurbishment of the outdoor pool chairs and sofa has been successfully completed, resulting in a noticeable improvement in both appearance and functionality. The work addressed previous signs of wear and damage, restoring the decor to a high standard that aligns with the overall quality of the pool area. This enhancement improves the first impression for visitors.

The complete refurbishment contributes to a more professional and welcoming atmosphere, reinforcing the outdoor pool area's status as a well-maintained and prestigious space for events and gatherings.

HAPPENING IN OUR PROPERTIES

The Housekeeping Department has successfully met all organizational standards and completed a wide range of key tasks throughout the period.

The team also organized practical training sessions on proper manual-handling techniques to improve staff safety and efficiency.

Additionally, due to recent climate changes, we are carrying out thorough disinfection of the club premises to ensure a safe and healthy environment for all. Your contribution is key to creating a clean, safe, and welcoming environment for everyone.

Qatar Chamber Exam: Intensive Training and Mock Test Session

The QHSE Department successfully conducted an intensive training program for Batch 4 in preparation for the Qatar Chamber Exam. The session went beyond traditional lectures by incorporating focused mock tests designed to simulate the actual assessment environment.

This practical approach allowed for individual performance evaluation, pinpointing specific strengths and areas for improvement. The initiative provided tailored learning support, ensuring attendees are not only familiar with the exam material but also confident in applying their knowledge effectively. This targeted preparation is a crucial step for participants to achieve the status of qualified food handlers and obtain their MOPH-approved license cards.
